TIPS FOR SUCCESSFUL TRAINING

- Try do as many of your walks off-road and/or over hills if possible (the running programs specify whether to run on hills or flat).
- Unless otherwise specified, you should be able to talk on all runs and walks (if not you are going to hard).
- If you can walk/run the Pinapple track on your longer Sunday runs then that will be a great advantage.
- Train with a group of friends to keep motivated.
- Make sure you **REST** on your rest days (you need adequate rest to recover).
- Record your training so you can look back to see how far you have come.
- Prepare for all types of weather – take warm clothing and water on your longer run/walks.
- Make sure you have adequate footwear that can handle off road conditions.
